Physical

InBody composition and ECG normality indicate a healthy physical state. Bioresonance physical findings support this assessment.

Emotional

Bio-Well stress index indicates low/moderate stress levels. Nadi vikruti/pulse quality suggests a balanced emotional state.

Psychological

Bio-Well psychology indicators suggest a normal psychological state. Nadi stress/overthinking parameters indicate no significant concerns.

Spiritual

Bio-Well chakra alignment % and energy reserve % indicate good spiritual health.

Wellness Offerings

Diet

Eat a balanced diet that includes plenty of fruits and vegetables. Avoid spicy and heavy foods.

Yoga Therapy

Practice gentle yoga poses to improve flexibility and balance. Focus on deep breathing exercises.

Physical Activity

Engage in regular physical activity, such as walking or jogging, for at least 30 minutes a day.

Sleep

Get 7-8 hours of sleep each night to help your body recover from the day's activities.

Stress Management

Practice stress-reducing techniques, such as meditation or deep breathing exercises, to manage stress levels.

Supplements

Consider taking supplements that support digestive health, such as probiotics or digestive enzymes.

Medicine & Ayurvedic Herbs

Consult with an Ayurvedic practitioner about potential medicines and herbs to support your overall health.
